## PROFESSIONAL SUMMARY

QA Engineer with over four years at Sapiens, an insurance software provider, moving from application support into test automation. Builds Cypress end-to-end and regression suites in TypeScript, tests REST APIs with Postman and Rest Assured, and validates data in Oracle. Years of reproducing real customer issues bring a production-first view of quality.

## SKILLS

**Test automation:** Cypress, TypeScript, Page Object Model, reusable test helpers, Allure Reports, test data generation

**Testing:** Regression, end-to-end, API and manual testing; defect reproduction and reporting

**API and database:** Postman, Rest Assured, SQL, PL/SQL, Oracle Database

**CI/CD and tools:** Jenkins, GitHub, JFrog, Jira, Confluence, ServiceNow, Kanban

**AI-assisted testing:** Claude Code for writing and reviewing tests

**Platforms:** Microsoft Azure, Entra ID / Active Directory, Datadog

## PROFESSIONAL EXPERIENCE

### Quality Assurance Engineer
Dec 2025 – Oct 2026

Sapiens, Denmark

- Built and maintained Cypress end-to-end tests in TypeScript across several web applications, using the Page Object Model and reusable test helpers.
- Ran regression suites after releases to confirm application stability across multiple test environments.
- Tested REST API endpoints with Postman and Rest Assured.
- Validated Oracle database records as part of UI and API test flows.
- Monitored automated test pipelines in Jenkins and reported results with Allure.
- Used Claude Code to speed up writing and reviewing Cypress tests, with human review of every test before merge.

### Application Support Specialist
Jun 2022 – Nov 2025

Sapiens, Denmark

- Reproduced customer-reported defects and documented them for escalation in Jira and ServiceNow.
- Supported customers with troubleshooting and technical guidance on Sapiens application(TIA Insurance solution).
- Monitored Datadog alerts for cloud customer environments.
- Managed hotfix releases and wrote technical guides for the Knowledge Base.

### IT Support Specialist
Nov 2021 – Mar 2022

Discover Network, Denmark

- Provided 1st and 2nd level IT support, deployed Windows and macOS devices.
- Managed device decommissioning, including secure data wiping, asset inventory updates, and removal of devices from company systems.
- Managed IT assets and updated the Configuration Management Database (CMDB) to maintain accurate asset records
- Managed employee onboarding and offboarding, including user account creation, access provisioning, and account deactivation.

**IT Consultant (Freelance)** Jun 2012 – Mar 2022

H-Tech Supports, Denmark

- Provided support for clients including J.P. Morgan, Nielsen Media, Club Car ,PVH and Dentsu.
