SUMMARY

QA Engineer at Sapiens with a background in application support. I automate regression tests with Cypress and TypeScript, test REST APIs with Postman, and bring a customer's perspective from years of reproducing and resolving real production issues.

SKILLS

- Cypress, TypeScript
- Page Object Model
- Regression Testing
- Manual Testing
- Postman, Rest Assured
- Allure Reports
- AI-assisted Testing (Claude Code)
- SQL, PL/SQL, Oracle DB validation
- Test data generation
- Jira, Confluence
- Jenkins, GitHub
- Azure
- Entra ID / Active Directory
- 1 & 2 Level IT Support

WORK EXPERIENCE

Quality Assurance Engineer

Sapiens · Feb 2026 – Present

- Performed regression testing to ensure application stability after releases
- Built and maintained Cypress end-to-end tests in TypeScript across several web applications, using the Page Object Model and reusable test helpers
- Verified data in the Oracle database as part of UI and API tests
- Produced Allure test reports and ran test suites against multiple test environments
- Used Claude AI (Claude Code) to speed up writing and reviewing Cypress tests, with human review of every test before it was added
- Monitored automated test pipelines in Jenkins
- Tested REST API endpoints using Postman

Tools: Jira, Confluence, Kanban Board, Cypress, JFrog, Postman, PL/SQL, Jenkins, GitHub, Claude AI, Rest Assured and ServiceNow.

Application Support Specialist

Sapiens · Jun 2022 – Jan 2026
